Honorable Karen McQueen Brazos County Clerk 300 E. 26th St Ste. 120 Bryan, Texas 77803

RE: Imaging and Indexing of Historical Records

Dear Hon. Karen McQueen,

Please find a quote for the imaging and indexing of historical records for the Brazos County Clerk's office. Quoted services include image capture, processing, and enhancements. This proposal is presented by Kofile Technologies, Inc. (Kofile). Prices are good for 90 days from the date of this quote.

This project may be eligible for reimbursement under the American Rescue Plan Act of 2021 (ARPA) in support of Social Distancing for COVID-19 and pandemics for title researchers/attorneys by providing online access to digitized assets.

SCOPE OF SERVICES

General treatments and services are outlined in the following. Services are tailored to the needs of the specific item.

Imaging - (Archival Image Capture, Image Processing, Clean Up, & Enhancements) (IM)

- Capture images at a minimum of 300 dpi at 256 gray levels, ensuring the highest quality for poor contrast and illegibility. Gray-scale ensures optimum resolution for each page.
- Images accumulate as Group IV bi-tonal images in a standard PDF or TIFF format.
- If applicable, IMAGE PERFECT is Kofile's proprietary software, ensures the optimum image quality with custom image clean up and enhancements such as deskew, despeckle, character repair, polarity reversal, and zonal processing.
- Crop excess blank space around image. This may involve manual cropping to insure best quality image.
- If applicable, images are optimized and scaled for system output.
- Images are named (tagged for the directory file structure) by Book, Volume, and Page (or other identifiers).
- When multiple documents (Marriage Records, Deeds, Birth Record, etc.) exist on a single page, images are split so that each document is viewable individually. In the case of Vitals, this service incurs additional charges.
- Images are grouped (stapled) together to form documents. Cases are grouped and indexed to form documents by case number.
- If requested, annotations are supported to allow the electronic addition (either custom or Book/Volume/Page) on the re-created image to assist in recording keeping. This service is not applicable to Vitals.
- Effectiveness and minimum legibility are verified through rigorous and systematic quality control. Each image is certified and sight-checked to ensure there are no missing pages, double feeds, and to account for "A" pages (added to the original).
- The County receives a MASTER (e.g., CD, DVD, ftp, flash drive) in a medium suitable to the project size.

6300 CEDAR SPRINGS ROAD, DALLAS, TEXAS 75235 P: 214/442.6668 F: 214/442.6669 WWW.KOFILE.COM

Archival Indexing (ID)

- Key and blind re-key verify documents.
- Formatting of metadata (indexes) per the requirements of the County's System vendor.
- If requested, Kofile can provide a Disaster Recovery electronic offsite backup of metadata.
- Indexing fields, as applicable, and identified below:
 - ♦ Bride
 - ♦ Groom
 - ♦ Date of Marriage
 - ♦ Recorded Date
 - ♦ Doc Number
 - ♦ Book
 - ♦ Volume
 - ♦ Page
